Kota Bandung, Jawa Barat

As a recent graduate in informatics engineering, I am keen to embark on a career as a mobile app developer. My expertise in Flutter renders me well-equipped to offer my skills and knowledge to any professional context. I am committed to continuous development, and I am confident in my ability to make meaningful contributions to any team. I am eager to tackle new challenges and apply my technical expertise to a range of projects.

Experiences

Thesis Project (Skripsi) - UMKM kec. Malingping

Dec 2022 - Jun 2023

Mobile Engineer

The thesis project aims to develop a mobile application named E-Market. It is designed to support Micro, Small, and Medium Enterprises (MSMEs) in the Malingping District. The primary objective of this application is to expand the marketing and promotional reach of these businesses. Additionally, it aims to streamline the buying and selling process for both the MSMEs and their customers.

- Developed the E-Market mobile application for UMKM businesses and buyers in Kecamatan Malingping.
- Implemented features and functionalities promoting online sales and digital transformation for UMKM businesses, based on a strong understanding of user needs and regional business practices.
- Customizing app features to enhance regional shopping experience for buyers.
- Developed targeted applications to enhance user experience and drive digital transformation in Kecamatan Malingping.

PT. Inovasi Karya Mahendra (INKARA) - Bandung

Mar 2022 - Jun 2022

Mobile Developer intern

PT INKARA is a company engaged in the business of Products and Services. Established since 2021 with the Legality of Notary Deed dated December 24, 2021 and Decree of the Ministry of Law and Human Rights dated December 28, 2021. Currently PT Inovasi Karya Mahendra has been confirmed as a PKP.

- Developed a mobile app prototype called Kantin Virtual for the Faculty of Engineering at Universitas Pasundan
- Designed user interface and implemented it using Flutter framework
- Worked independently to complete the project within three-months internship
- Demonstrated the prototype app to field supervisor and received positive feedback
