Kota Bandung, Jawa Barat

Junior mobile developer with 2+years of experience in Flutter, eager to apply my skills in a dynamic professional setting. Holding a recent degree in Informatics Engineering, I possess a strong foundation in software development and problem-solving. Committed to continuous learning and confident in collaborating within teams and embracing new challenges, I am excited to contribute to innovative projects.

Experiences

PT. Inovasi Karya Mahendra (INKARA) - Bandung   Mar 2022 - Jun 2022

Flutter Developer Intern

A company that is engaged in the business of Products and Services.

- Developed a mobile app prototype called Kantin Virtual for the Faculty of Engineering at Universitas Pasundan
- Designed user interface and implemented it using Flutter framework
- Worked independently to complete the project within three-months internship
- Demonstrated the prototype app to field supervisor and received positive feedback
